

September, 2007

To Whom It May Concern:

The owners of Stortz & Associates Inc. are first and foremost, parents like yourselves. Our children and our many nieces and nephews play with the toys and games distributed by our company.

We maintain close contact with each of our inventors and manufacturers to ensure that products are tested for safety and quality, and manufactured under responsible working conditions.

Our inventors have provided us with letters outlining their personal guarantees of product quality, which can be viewed on our website www.stortz.ca, "Toy Safety Statement".

I would welcome any inquiries. Please contact me directly,

Linda Stortz
